Krystal,

That's totally fine, thank you for looking into it!

Thanks,

Jackson Carter

Hi Krystal,

Hope you're doing well. First of all, I looked at your website and you have created some amazing homes! We are Wilson Plywood's supplier for flexible moulding and I am reaching out because we are in the process of building a new website and we are looking for high-quality, professional photography of our curved trim installed finished in the field. I reached out to Stacy, who said they were ok with us using the attached images from their site and your projects, but she said I should double check with you as well.

We would provide full credit to both Built By Regan and Wilson Plywood with backlinks to your websites. If you're open to giving us permission, would you mind replying with:

1. A quick note confirming we have your permission to share them with credit
2. If there is any additional credit, such as photographer, that we would need to note
3. If any of the images attached do not contain our product

a. Also if any of the “BBR” titled images, which were only on your website, did not use Wilson Plywood as the supplier – ie: only Built By Regan credit

4. If there are any images you would like included which are not currently posted on your site

We won’t post anything without your permission – I look forward to hearing from you!

Thanks,

Jackson Carter
