Hi Rachel,

Hope you're doing well! We are Wilson Plywood's supplier for flexible moulding and I am reaching out because we are in the process of building a new website and we are looking for high-quality, professional photography of our curved trim installed finished in the field. I reached out to Stacy, who said they were ok with us using the images they have featured from your homes on their website, but she said I should check with you as well. I took a look at your site, and you have some incredible builds!

If you're open to giving us permission, we would provide full credit to both Ron Davis Custom Homes and Wilson Plywood with backlinks to your websites. Aside from the two homes listed on Wilson Plywood's website ("Harvest Meadow" and "Aberdeen" which are attached), I noticed a TON of other houses on your site containing curved trim. For example, the "RDCH1" picture would pretty much be a flagship image for our product.

If that's of interest to you, would it be best for me to compile an album of any pictures that look like they contain our product? You could then provide:

1. A quick note confirming we have your permission to share the images with credit
2. If there is any additional credit, such as photographer, that we would need to note
3. If any of the images attached do not contain our product
    a. Also if any of them did not use Wilson Plywood as the supplier – ie: only Ron Davis Custom Homes credit

Alternatively, you could send over images that you would like to be included (which contain our product) if that's better for you.

We won't post anything without your permission – I look forward to hearing from you!

Thanks,

Jackson Carter
