

Date: December 15, 2025

Subject: California Proposition 65 Compliance Declaration – PFAS

To Whom it May Concern:

Carter Millwork, Inc confirms **California Proposition 65** compliance for all flexible molding materials and trim manufactured after mid-2025.

Carter Millwork, Inc. **completed a transition to PFAS-free materials in mid-2025**. Based on our material specifications, supplier certifications, and manufacturing processes, we confirm our productions **do not contain Per- and Polyfluoroalkyl Substances (PFAS)** at levels that would require a California Proposition 65 warning.

To the best of our knowledge and belief:

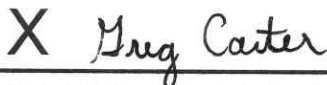

- The products supplied by Carter Millwork, Inc. **do not contain PFAS** listed under California Proposition 65 at reportable levels.
- No California Proposition 65 warning is required for the products supplied.
- The materials are compliant with applicable federal, state, and local laws and regulations in effect at the time of manufacture and shipment.

Carter Millwork, Inc. remains responsible for the accuracy of this declaration and for ongoing compliance with all applicable regulations, including California Proposition 65, as such regulations may be amended from time to time.

Should regulatory requirements change, or should we become aware of any information that affects this declaration, our customers will be notified promptly.

Please contact me if additional information or clarification is required.

Sincerely,

A handwritten signature in black ink that reads "Greg Carter". The signature is written in a cursive style with a large "X" at the beginning.
